

## Shared Living Services

### PROVIDER SUPPORT

Shared Living Providers are independent contractors who receive a generous daily stipend, training, supervision, access to 24/7 emergency on-call support, and assistance with care coordination. Providers participate as a member of the individual's team and are supported by Woodfords' shared living team members, community case managers, and others involved in the individual's life

Woodfords' provides Shared Living Services in its offices in Kennebunk, Westbrook, and Manchester supporting providers throughout Southern & Central Maine

Woodfords' Shared Living Program provides family and home-based services to adults with intellectual disabilities who are looking to enhance their independence. Shared Living providers open their homes to adults with intellectual disabilities. Providers offer direct support in their own home, providing a natural family environment and fostering relationships and community inclusion. This program is an alternative to group home living and is funded by Section 21, 29, and private pay.

### QUALIFICATIONS

Parents, relatives, or even family friends are able to be Shared Living providers for their loved ones with intellectual disabilities when they reach adulthood. Additionally, Shared Living providers can be paired with a non-related individual with similar interests.

Shared Living providers must be able to pass a full background check, be in good mental and physical health, able to complete required trainings, and be willing to work as a member of the program team.
