

# Summer EnRICHment Program

Individualized programming for children grades K-5 diagnosed with Autism Spectrum Disorder

Registration Now Open! Program Runs July 8 - August 16 2019

## ABOUT THE PROGRAM

The Summer EnRICHment Program provides individualized programming designed to meet the unique needs of each child. Children are assigned a 1:1 Behavioral Health Professional (BHP) and a Board Certified Behavior Analyst (BCBA). The BHP works with the child in individual and/or group settings to work on behavior management, communication, independent living, self care, self help, and socialization skills. Parents can observe and are requested to participate in programming 2 hours a month so that they may carry over these skills in to the home environment.

Woodfords Family Services is a leader in the provision of clinical, educational, family support and training programs in Maine communities. The agency has supported people with special needs and their families since 1967. The Summer EnRICHment Program is named in honor of Woodfords' founder Alan Rich, who passed away in 2019.
