

Verification of CPR, First Aid, & Bloodborne Pathogen Training

It is the Certified BHP Instructor's responsibility to verify that each participant in the BHP Training has current Adult and Child CPR & First Aid certification and has completed an OSHA compliant Bloodborne Pathogen training within the previous 365 days. (Please refer to the BHP Policies & Procedures Manual for detailed information regarding these requirements.) This *Verification of CPR, First Aid, & Bloodborne Pathogen Training* form must be submitted with the *BHP Training Documentation* form.
